

Planning Process

- Comprehensive planning process consisting of six key tasks. Studies include environmental and engineering analysis, along with agency/public input .
- Identification and evaluation of alternatives that meet project purpose and need
- TEP will identify a preferred route(s), as well as alternative routes, for permitting and construction.
- TEP will prepare and file a Certificate of Environmental Compatibility (CEC) application to be reviewed by the Arizona Power Plant and Transmission Line Siting Committee.
- The ACC will make a final decision to approve or deny the CEC application (with any conditions).
